Tianyi Yofus Technology Co., Ltd.

Company profile

Tianyi Yofus Technology Co., Ltd. was established in 1992 and listed on the "New Third Board" in 2015. It is a national high-tech enterprise specializing in large-scale customized digital printing. Based on the deep integration of next-generation information technology and digital printing technology, the company adopts an innovative model of "e-commerce + chain stores + central factory + logistics distribution" to carry out personalized custom design and large-scale flexible production of printing products, including artistic images, commercial printing, industrial support, and IoT smart labels. The company provides C2B personalized custom printing products and services for individuals and businesses, as well as S2B custom printing supply chain support for users in industries such as graphic fast printing, advertising design, photography companies, printing e-commerce platforms, and manufacturing.

Enterprise scale

With a production area of 50,000 square meters, it is the largest digital printing production base in China.

South China Production Base- Guangzhou

East China Production Base-Wuhu

Tianyi Yofus' business structure mainly includes two customized design and printing e-commerce platforms, two digital printing smart factories (in Guangzhou and Wuhu)
