QUOTATION

Date: Sep.30, 2025
Ref.: DTEC-O-25093001

Sub: Solar T70 package

We, Dongturbo, hereby would like make our best offer as follows for your target products.

1. Scope of supply

The list below is Solar T70 package scope, which will be provided by seller.

Solar T70 NG Conventional Burner Gas Turbine		
Item	Supply Scope	Qty.
1	Solar T70 gas turbine generator set; 1). Main Body: Includes the gas turbine, generator, gearbox, engine base, and silent enclosure. 2). Lubricating Oil System: Includes the main oil pump, AC oil pump, DC oil pump, dual-row oil filter, oil cooler (air-cooled), oil mist separator, and oil piping. 3). Fuel Gas System: Includes the shutoff valve, vent valve, regulating valve, and piping within the hood. 4). Gas Turbine Air Intake System: Utilizes a Donaldson self-cleaning air filtration system, including the filter unit, backflush device, control system, elbow connecting to the hood, air intake silencer, support frame, maintenance platform, and ladder. 5). Hood Ventilation System: Includes the ventilation filter, air duct, fan, and silencer. 6). Unit Fire Protection System: Includes the CO2 cabinet, controller, flame detector, temperature detector, gas detector, and alarm. 7). Electrical System: Includes the MCC, starter motor inverter, and charging cabinet. 8). Others: exhaust system, compressed air system (inside skid), cleaning system (inside skid). The price includes gas turbine package, generator package, and auxiliary items outside refurbish, include deformation correction, de-rusting, re-painting.	1 Set

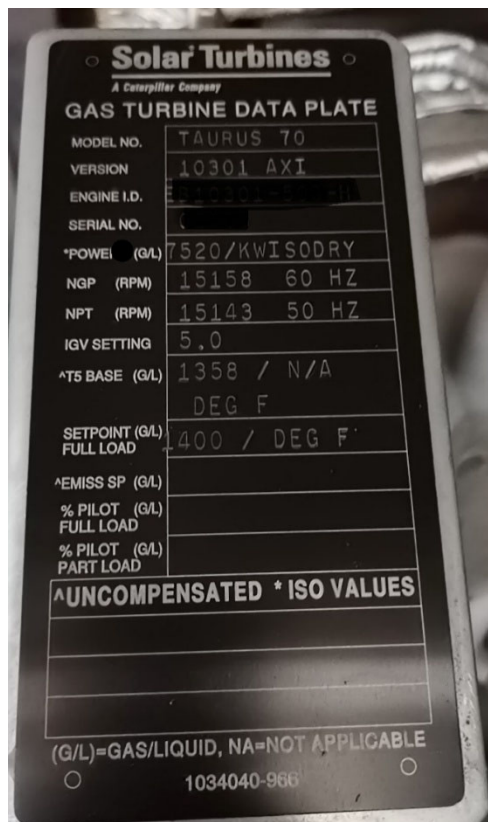

Solar T70 gas turbine basic information

Engine	T70 Gas Turbine
Fuel Nozzle	NG
Year of Manufacture	2004
Commissioning time	2005
Total Firing Hour	10000 hours
Last firing date	2012
