## MARCH 2026

## **IKB (Integrated Keyboard) Support Status Change to Extended**

The IKB (Integrated Keyboard) product family is transitioning to Extended support immediately.

Further manufacturing isn't possible due to critical components no longer being available.

When the existing inventory has run out the support status will transition to phased out and there won't be any future supply.

The OEP (Operator Entry Panel) and OTP (Operator Touch Panel) provide equivalent functionality to the IKB. These are both fully supported there are no plan to change this.

<b>Model No/Part Number</b>	<b>Description</b>	<b>Support Status</b>
