TB521-ETH

ABB | AC500 V2

Terminal base for one AC500 processor module and two communication modules, with Ethernet RJ45 networking.

Technical Data

Complete model	TB521-ETH
Order number	1SAP 112 100 R0270
Product type	AC500 terminal base
Slots	1 processor module; 2 communication modules
Supply connection	24 V DC via removable 5-pin spring terminal block
Maximum current consumption	0.4 A from 24 V DC, including installed processor, communication modules and I/O bus supply
Interfaces	I/O bus, COM1, COM2 and FBP; Ethernet RJ45 through the installed compatible CPU
Dimensions	123.5 x 135 x 28 mm, width x height x depth
Net weight	200 g terminal base without processor module
Mounting	Horizontal or vertical; 35 mm DIN rail or screw mounting with TA526 accessories
Protection	IP20 when the complete system is correctly assembled and unused slots are covered
Process/supply voltage	24 V DC (-15%, +20%); reverse-polarity protection
