Combi Steamer

Pro 6-Tray Electric Combi Steamer (Touch Screen Type)

1. Spray-type steam generation — no separate boiler chamber
2. Full cooking capability — steam, convection and combi modes plus a 25–250 °C working range.
3. Straightforward build — single-speed fan and an external water gun for direct control and a smaller footprint.
4. Shared platform features — core-probe temperature control, intelligent power regulation, percentage-based humidity control, dynamic air control with vent-valve moisture release, full-view LED window, recipe memory with USB import/export and stackable two-unit configurations.

FPSO611PETN

Dimensions	910*810*900mm
Inner Size	440*645*580mm
Height of Each Layer	70mm
Voltage	380~400V/50Hz,3N
Power	11.5~12.5kW
Capacity	6 pcs*GN1/1*1" pan
Working Temperature	25°C-250°C
Net Weight	141kg
Function Knob	None
Wind Speed	1 speed
Number of Fans	1
Water Gun	External water gun
Automatic Cleaning	None
