i About Apex Technologies

To be a trusted and innovative leader in electrical products and solutions worldwide

WHO ARE WE

Apex Technologies specializes in the research, development, and manufacturing of transformer products. Our product range includes oil-immersed transformers (S11, S13, SZ11, SZ13, SFZ11, SFZ13), dry-type transformers (SCB, SG), special transformers, prefabricated substations (ZGS, YBM, XBF), amorphous alloy transformers (SBH), transformers for new energy applications, high and low-voltage switch-gear and complete sets (XGW, DFP, MNS, GGD), and various transformer accessories.

We provide comprehensive end-to-end solutions and services, covering the entire process from electrical and mechanical design, quality control, material selection, core processing, winding, assembly, insulation, and testing to packaging.

With 18 years of industry experience, our factory has grown into one of China's leading transformer manufacturers, integrating R&D, production, and quality management. We hold multiple invention, utility model, and design patents, and are capable of providing OEM, ODM, and customized solutions for clients worldwide.

GLOBAL TRUST & CERTIFICATION

Backed by strong technical capabilities and a strict quality management system, our factory has earned the trust of numerous customers and participated in several national key engineering projects. We are a long-term supplier to major enterprises such as China National Petroleum Corporation (CNPC) and COSCO Shipping, and enjoy an excellent reputation in the industry.

Our products are CE certified and exported to the United States, Russia, Southeast Asia, India, the Middle East, and many other regions, receiving widespread recognition and praise from international clients.

GLOBAL REACH

Apex Technologies also has a highly experienced international trade team dedicated to providing global customers with high-quality transformers and power transmission products that meet international standards.

i Why Choose Apex Technologies

Pioneering intelligent electrical ecosystems that are reliable, efficient, and Eco-friendly

Competitive Pricing:

We offer highly competitive prices while ensuring the highest product quality.

Quick Response:

With extensive experience in global collaboration, our team responds promptly to your needs — saving time and achieving mutual success.

Short Lead Time:

Customer satisfaction is our top priority. For urgent orders, we can shorten the production cycle to meet your delivery requirements.

One-Stop Service:

From project design to on-site support, we provide complete solutions.

- ◆ We can assist with drawing and design based on your project needs.
- ◆ If you require related power transmission products, we can recommend trusted Chinese suppliers.
- ◆ For installation guidance, our technical experts can provide on-site service and professional support.

Reliable Logistics:

Our founder also operates an international logistics company, enabling us to handle CIF terms efficiently and ensure smooth, reliable delivery worldwide.

Let's Build the Future Together

Apex Technologies firmly believes that trust and professionalism are the foundation of successful partnerships. We empower our clients with strong support to help them win more projects and orders.

Empowering our customers to become suppliers of high-end electrical products and premium solutions.
