lecoco

Lecoco, an infant mobility brand that embodies the essence of Italian design and manufacturing, was born in the artistic and historic city of Bologna. Since its establishment in 2006, Lecoco has focused on the infant mobility sector, dedicated to providing high-quality, safe, and reliable childhood solutions for newborns and young families worldwide.

Driven by an unwavering commitment to quality and a deep understanding of user experience, Lecoco has earned the trust and affection of thousands of families across the globe. From the elegant streets of Europe to family outings around the world, Lecoco stands as a delightful and thoughtful distressed companion, supporting babies as they explore the world and cherish every moment of growth.

We believe that every safe, comfortable, and joyful travel experience vividly reflects the value of the Lecoco brand.

To ensure the best experience with our product, please read this manual carefully. It includes detailed guidelines for use, safety rules, product descriptions, and maintenance instructions.

For additional support and information, please contact our customer service team. Always follow the instructions provided in this manual, and ensure children use the product under adult supervision.

Installation and usage instructions

Figure 1

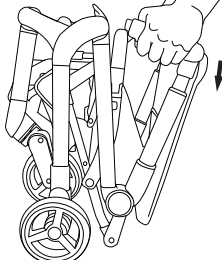

Figure 2

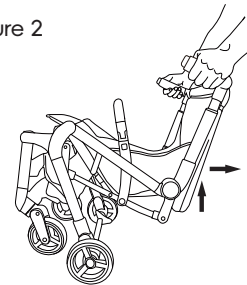

Figure 3

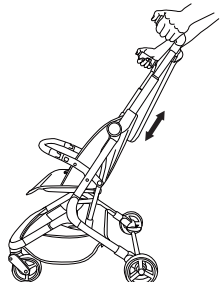

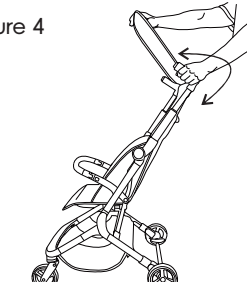

Figure 4

Stroller unfolding:

Grasp both handles with both hands and press them down to the bottom (Figure 1), then pull the handle back and up again (Figure 2) until the stroller platform is fully unfolded (Figure 3). Then press and hold both buttons at the same time. The handle can be adjusted to the desired engagement position in the direction of the arrow (the height of the handle can be adjusted in three sections, marked 1-2-3 respectively). Special attention: the marked 0 gear is the folding gear and cannot be pushed out for use). Open the roof (Figure 4). (Note: After unfolding the stroller platform, check if the locking position is in place, otherwise do not use!)

Installation and usage instructions

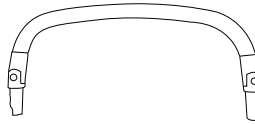

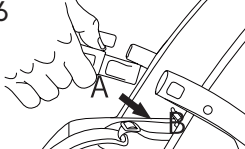

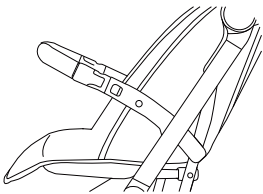

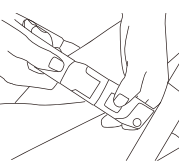

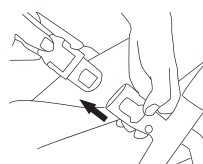

Figure 5  **Figure 6** 

Figure 7  **Figure 8**  **Figure 9** 

Armrest installation:

When installing the armrest (as shown in Figure 5), align the armrest (as shown in A) with the armrest seat on the cart (as shown in B), insert and engage it, and the armrest installation is complete (as shown in Figure 7). (Note: The armrest must be used with the original configuration to avoid injury to the baby caused by incorrect installation. After the armrest installation is completed, pull it outward to check if it is securely fastened.)

Handrail disassembly:

When disassembling the armrest, press the armrest button (Figure 8) and pull the armrest outward in the direction indicated by the arrow (Figure 9) to remove the armrest.

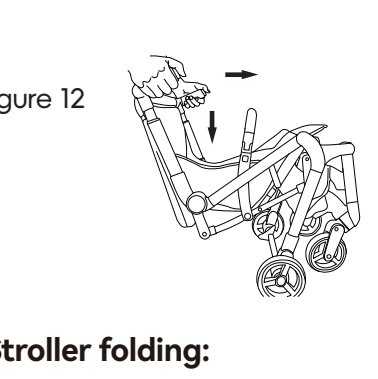

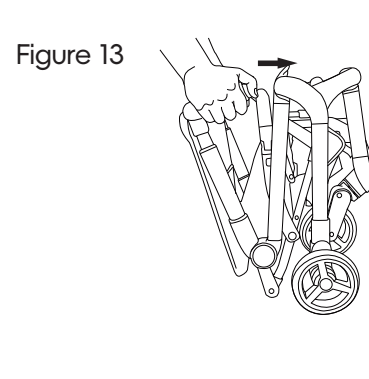

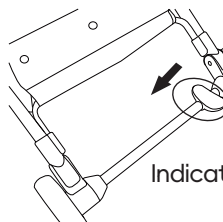

Figure 13

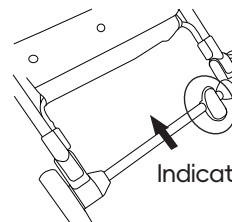

Stroller folding:

Press and hold the buttons on both sides of the handle with both hands simultaneously, lower it to the 0 gear mark (Figure 10), then push the handle to the bottom in the direction of the arrow (Figure 11) and push it down and forward with force (Figure 12). The handle will automatically lock and fix the trolley platform in the direction of the arrow (Figure 13) to complete the folding of the trolley platform.

Installation and usage instructions

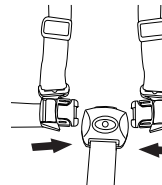

Indicator light

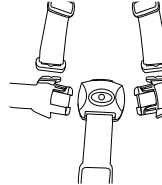

Indicator light

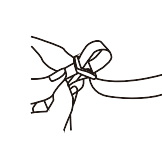

Press the brake pedal forward, the indicator light will turn green, and the rear wheels will be unlocked. Press the brake pedal backwards, the indicator light will turn red, and the rear wheels will be in a braking state.

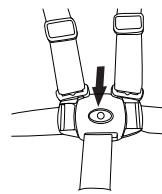

Seat belt usage:
Insert the safety buckle and both sides baby side into the female buckle, and hear a 'click' sound to indicate engagement.

Unlock the seatbelt:
When unlocking the seat belt, pull the upper end of the disassembled side buckle forward to unlock the upper belt, otherwise install it.

Seat belt/shoulder strap adjustment:
Adjusting the Japanese buckle on the seat belt/shoulder strap can adjust the length of the seat belt/shoulder strap, making the baby more comfortable.

Seat belt unlocking:
Press the buckle to release the safety buckle and unlatch the seat belt.

Precautions for use

When children ride Caregivers, don't leave!

When children ride, do not lift the entire stroller upwards!

When children ride, it is not allowed to adjust the backrest!

When children ride, the seat belt or restraint system must be properly fastened and used!

Do not let children stand on the stroller!

Do not hang any bags or place any items on the handle to avoid affecting the push the stability of the car!

Ensure that all locking devices are in the locked state before using the car!

When parking a car, make sure to use all braking devices properly!

When the car is moving, be sure to lock the rear wheels (using the brake device)!

When adjusting any movable accessories on the car, it is necessary to determine the child's limbs keep a safe distance from the car!

Overloading or incorrect folding, as well as the use of incorrect spare parts, are all possible causing damage, malfunction or insecurity to the trolley!

Users and guardians are advised to carefully read this manual before use and to handle it properly. Save for future reference. Failure to follow this manual may affect the safety of children. Prohibit the use of this trolley in stairwells, uneven areas, and other places that are prone to tipping over!

To avoid suffocation, keep plastic coverings away from infants.

Do not approach fire!

Please do not place items weighing more than 2kg in the storage basket!

Applicable age: 6-36 months! In seat mode (backrest to seat angle less than 150 degrees) This stroller is not suitable for children under 6 months old!

This product cannot use any accessories that are not from our factory!

Repair and maintenance instructions

Before each use, check whether various components (screws and rivets) are firm and intact. Whether the components or seat cloth are damaged should be checked and repaired regularly. For the safety of your baby, please stop using if there are any abnormalities.

Avoid prolonged use or storage in damp, cold, or high temperature environments. This can easily lead to rusting and aging of parts, affecting the product's service life or causing danger.

Clean the seat cushion: Remove the fixed webbing and safety buckle, hand wash with warm water, and air dry. Do not expose yourself to excessive sunlight.

Do not use bleach to clean the frame. Please avoid hardware parts from coming into contact with water rust free, affecting the service life of the product.

Regularly inspect the trolley and repair it promptly if there are any issues.

Please avoid excessive exposure to sunlight or strong heat, otherwise it will promote component aging and the fabric fades.

Various rotating parts (such as wheel joints, etc.) should not be lubricated with viscous mechanical oil. A small amount of diluted lubricant can be added to prevent the lubricant from adhering to debris and affecting rotation.

Key parts should be regularly checked for normal operation, such as the second lane to prevent accidental parking, locks, braking devices, etc.
