Accessories:

①

USAGE

Push the switch lever and adjust it to the desired speed position to use the clipper.

- When the battery level is sufficient, the clipper can be operated cordless.
- When the battery level is very low or there is no time to charge the clipper, it can be temporary operated with a cord like the corded version.

* The battery will be charged simultaneously when the clipper operated with a cord.

②

CHARGING INSTRUCTION

PGC-320 support working with cord and cordless, to meet the demands of long working hours. Cordless using is more convenient.

The clipper can be charged by charing cable and your power adaptor.

When fully charged, please remove the charging cable. Remaining power from 0% to 100% takes only 150 minutes, convenient for you to use at any time.

During using the clipper with cord, it can be charged at the same time.

③

MAINTAINING BLADES

CAUTION:

Turn OFF the clipper and disconnect from outlet before performing maintenance.

BLADE REMOVAL, MAINTENANCE AND INSTALLATION

◆ BLADE REMOVAL

Hold the clipper face up with one hand and press the blade down with thumb, then remove the blade into the other hand to avoid dropping the blade.

◆ BLADE MAINTENANCE

- Blade cleaning: Press and hold the top of the shear blade. Use the cleaning brush to clean hair between the shear blade and the fixed blade.

④

CHARGING INSTRUCTION

- Blade oiling: Use 1-2 drops of lubricating oil on the 5 points shown below.

⊘ Do not detach the blade spring while maintaining to avoid malfunction.

◆ BLADE INSTALLATION

Hold the clipper face down with one hand and place the bottom of the blade aligning the middle of the blade with the clipper. Push the front of the blade down until it snaps into place.

⑤

Warranty card
