Standard Configuration: Coarse 5-in-1 Blade

ON/OFF

Speed adjustment button
5000 - 5500 - 6000 - 6500 - 7000 RPM

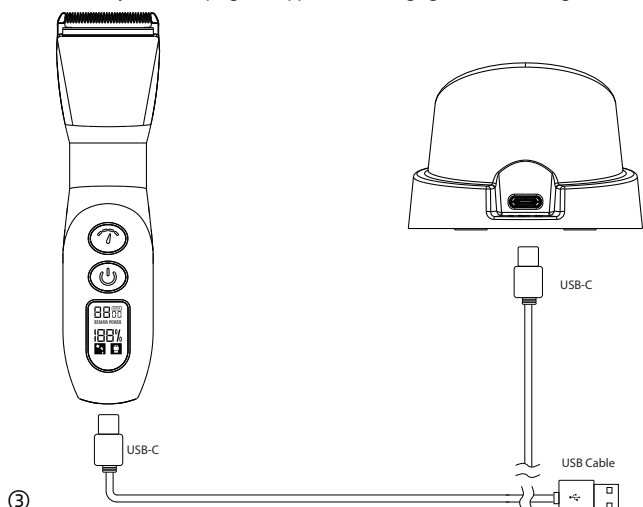

②

CHARGING INSTRUCTION

As shown in the figure, there are two charging methods, the efficiency of charging is the same.

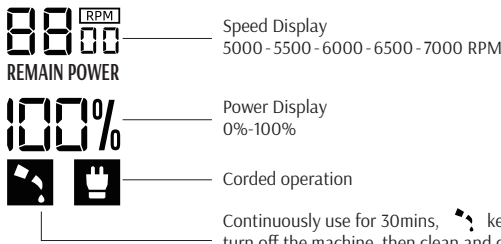

- ① Insert the power adapter output plug to the clipper for charging.
- ② Insert the power adapter output plug to the charging station, place the clipper in the charging station for charging.

- *1. The clipper can also be used while the power adapter output plug to the clipper. The battery will be charged simultaneously when the clipper operated with a cord. But the charging time will be longer if the clipper is operating.
2. In order to maintain a tight connection of the output plug to the clipper, it is recommended to always plug the power adapter output plug into the charging station and use the second method to charge the clipper, unless there is an urgent need for temporary corded operation.
3. You can return the clipper to the charging station at any time for a full charge, or even use the battery before a charge cycle is complete.
- Like most rechargeable batteries, lithium-ion batteries perform best when used frequently.
4. This clipper has a fully charged automatic power off protection function, so you don't have to worry about keeping the clipper in the charging station for a long time.

MAINTAINING BLADES

CAUTION: Turn OFF the clipper and disconnect from outlet before performing maintenance.

BLADE REMOVAL, MAINTENANCE AND INSTALLATION

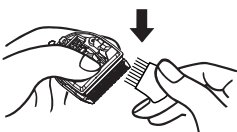

◆ BLADE REMOVAL

Hold the clipper face up with one hand and press the blade down with thumb, then remove the blade into the other hand to avoid dropping the blade.

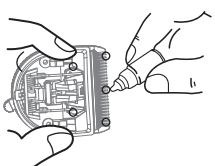

◆ BLADE MAINTENANCE

1. Blade cleaning: Press and hold the top of the shear blade. Use the cleaning brush to clean hair between the shear blade and the fixed blade.

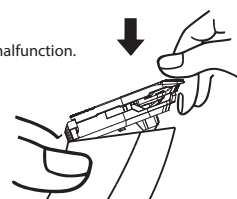

2. Blade oiling: Use 1-2 drops of lubricating oil on the 5 points shown below.

Do not detach the blade spring while maintaining to avoid malfunction.

◆ BLADE INSTALLATION

Hold the clipper face down with one hand and place the bottom of the blade aligning the middle of the blade with the clipper. Push the front of the blade down until it snaps into place.

⑤

OPTIONAL BLADE SERIES

PLUS Style Blade

Super smooth cutting / Warming slowly / Lower noise

Shernbao PLUS series Blades are expansion for 5-in-1 type clippers to get more efficient cutting, easier to use and run cooler, smoother coat results with fewer trims than using attachment combs on blade.
