Who are we

Founded in 1938.Sinar Mas Group's investments span Asia, North America, Europe, Australia and more markets around the world. Today, the Group operates under seven main business pillars: Pulp & Paper, Financial Services, Agri-business & Food, Real Estate, Energy & Infrastructure, Telecommunications, and Healthcare. Sinar Mas Group has been investing in China since 1992.

As the largest subsidiary under Sinar Mas Group, Asia Pulp & Paper Co., Ltd. (APP) owns dozens of pulp and paper mills and over 1 million hectares of fast-growing forests. Today, it is one of the world's largest pulp and paper manufacturing company. APP products find their way into the hands of consumers all over the world each day through many well-known brands.

Following decades of strong growth and a continued focus on delivering high-quality for its clients, APP has become one of the world's largest paper groups.As one of the world's leading vertically integrated pulp and paper producers, APP is committed to delivering high-quality products to meet growing global demand.

To be the world's premier fully-integrated sustainable forestry, pulp and paper conglomerate.

"Thriving in Symbiosis with Nature" reflects our original intention of respecting the ecology and protecting the lucid waters and lush mountains with our sustainable actions;

"Flourishing into the Future" is our forward-looking commitment of leading our green journey with innovation and responsibility.

APP China strives to balance its corporate development with conservation of the ecology through pragmatic actions. Every step we take, will be a concrete step towards a more sustainable future.
