SINO WORLD

QUICK ASSEMBLY
CONTAINER HOUSE

—— QUICK ASSEMBLY CONTAINER HOUSE

Each module is a self-contained unit with standardized dimensions.

It supports personalized modular assembly, can be lifted and relocated at any time, and costs over 50% less than traditional construction.

WHAT IS A
QUICK ASSEMBLY CONTAINER HOUSE

Each module is an independent unit with standard dimensions; it fits personalized assembly styles, can be lifted and moved on demand, and saves over half the cost compared to traditional housing.

Factory-produced units can be quickly assembled on-site with minimal weather impact, featuring short construction cycles and highly competitive costs. Modules can be freely combined and expanded later, suitable for private residences, boutique shops, warehousing, and office spaces.

Detachable Balcony Container House

The external balcony extends living space outdoors, ideal for sightseeing, leisure, and dining. Perfect for vacation homestays and scenic area accommodations.

Sloped Roof Detachable Container House

Sloped roof design enhances aesthetics, drainage, sun protection, and insulation. Resembles traditional architecture, ideal for long-term living, camp housing, and premium homestays.

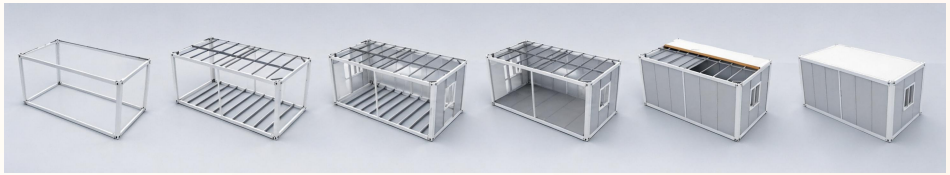

Glass Curtain Wall Prefab House

Features expansive glass walls for maximum light and transparency, creating a modern aesthetic. Ideal for high-end showrooms, boutique stays, and offices where image is key.

Quick Assembly Container House
——STRUCTURE AND FEATURES

Build a house like building with Lego!

Ultra-Fast	Installed in just half day.	Strong Build	All-steel seamless welding offers wind and seismic resistance matching permanent buildings.
Flexible Space	Modular free assembly breaks limits forver satile layouts.	Cost Control	Significantly reduces construction and maintenance costs,the king of life cycle cost-effectiveness.
Full Function	A "universal box" adapted to multiple scenarios.	Eco-Friendly	Recyclable materials and zero-waste construction for green sustainability.
