WHAT IS A MODULAR SPACE CAPSULE

Internet-famous attraction, Smart & Comfortable Space, Factory Prefabricated, Ready for Installation, Removable for Different Projects

Space Capsule (Mobile Smart Cabin / Pod Cabin) — Featuring eye-catching viral appearance and futuristic interior, it is a movable compact residence just like coming out of sci-fi movies. Fully prefabricated in factory with integrated pulleys or trailer structure at the bottom. Simply place it by crane, connect power and water, then it is ready for occupancy. No foundation required and no damage to the ground. Equipped with panoramic skylight, intelligent temperature control, voice-activated lighting, hidden storage and other amenities. It can be flexibly deployed at scenic spots such as mountainsides, lakesides, deserts and rooftops. Boasting three major advantages: viral marketing appeal, low-impact installation and relocatable reuse. It serves as a benchmark solution for cultural tourism homestays, upgraded camping sites and urban mini getaways, featuring low investment, high premium and fast return on investment.

- 2-Bedroom 1-Living Room Layout, Full-house Smart Home Appliances

- Fluorocarbon Aluminum Alloy Body, Moisture-proof, Corrosion-resistant & Rust-proof

- Earthquake-resistant Steel Structure, Resists Magnitude 9 Earthquake & Category 12 Typhoon

- Wall Insulation Material, Temperature Difference Isolation

- L-shaped Low-e Insulated Glass, Light Transmission, Heat Preservation & Sound Insulation

- Self-developed Hot-dip Galvanized Main Frame, Service Life Over 50 Years

- Fully Assembled & Dismantled, Green Construction Without Damaging Vegetation

- Built-in Support Legs, Adaptable to Complex Terrain, Suitable for Scenic Areas

OUR MANUFACTURING BASE

MULTIPLE APPLICATION SCENARIOS

01 CAMP MODE

Help farms, pastures and ecological parks develop new business models and build brand-new cultural tourism campsites.

No Terrain Restrictions, Eco-friendly Development

No foundation required. Applicable for peaks, dense forests, tidal flats and all terrains. No damage to plants, no construction waste, eco-friendly.

02 HOTEL MODE

Explore travel ecosystems and create unique tourist accommodation destinations.

Prefabricated Housing, Rapid Deployment

30-day production in workshop, fully integrated unit ready for installation within 2 hours. Ready to use, no on-site construction or decoration needed.

03 INTEGRATED MODE

Combine homestays with rural activities to build a one-stop project featuring dining, entertainment and learning.

Viral Check-in Spot, Eye-catching & Traffic-generating

Ideal for social media check-in, great photos in all weather conditions. Perfect blend of technology, humanity and nature. The product naturally attracts visitors.

04 TRAVEL MODE

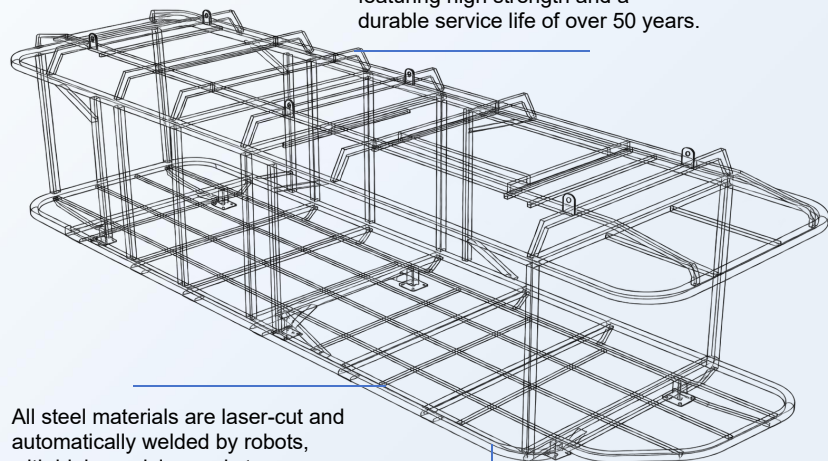

Build resort bases leveraging natural resources such as forest wellness, hot spring getaways, desert and coastal landscapes.

Panoramic View, Return to Nature

270° panoramic floor-to-ceiling windows with heat preservation & insulation. Sleep amid scenery and enjoy pure natural pleasure.

PRODUCT STRUCTURE AND MATERIALS

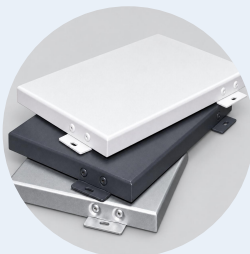

The entire cabin frame is welded with hot-dip galvanized steel inside, featuring high strength and a durable service life of over 50 years.

All steel materials are laser-cut and automatically welded by robots, with high precision and strong resistance to earthquakes and typhoons.

It can withstand all kinds of harsh weather. Moisture-proof, corrosion-resistant, fireproof, sound & heat insulated for long-term durability.,

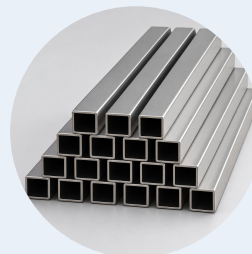

Aluminum Single Panel Structure

Durable & corrosion-resistant, high strength, safe, eco-friendly and recyclable.

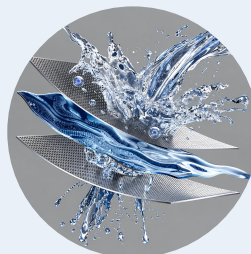

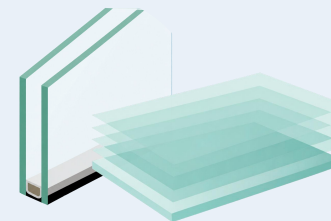

Galvanized Steel Structure

Corrosion-resistant, high load-bearing capacity, weather-resistant, durable and attractive appearance.

Double Insulated LOW-E Glass

Affectively providing heat insulation, sound insulation, anti-fog performance and filtering infrared thermal energy. Argon-filled structure improves thermal insulation performance, combining high light transmittance with safe compression resistance.

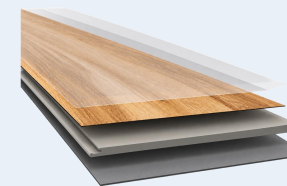

Whole-house Water Purification System

Efficiently filters impurities, improves water quality, protects equipment and extends service life.

Fresh Air System

Continuous ventilation & purification, eliminates odors and keeps indoor air fresh.

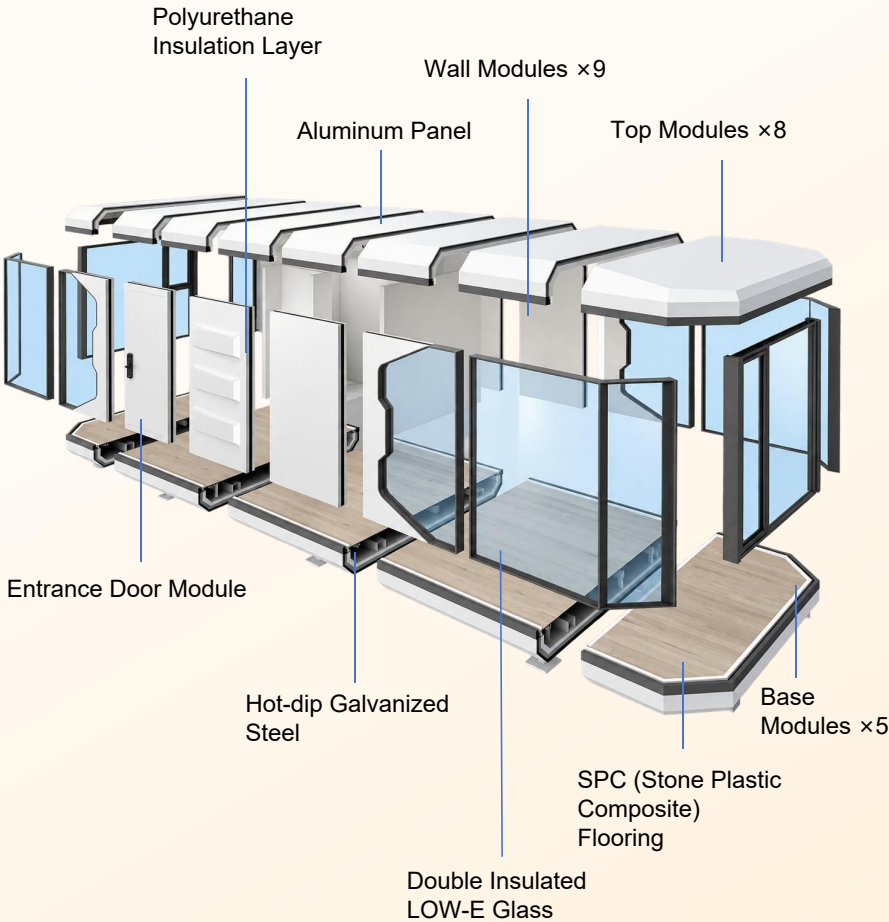

Stone Plastic Composite (SPC) Flooring

Multi-layer structure delivers wear resistance, stain resistance, impact resistance and long-lasting aesthetics. Silent & moisture-proof design effectively reduces noise, lessens wear and prolongs floor service life.
